ARCHITECTS L.L.C.

**Best Wishes From Your Friends  
at Wallace Architects!**

**Bitter Sweet End  
to 2017**

**Paul Anderson,  
Chief Production Officer**

We are at once happy and sad to announce the retirement of our Chief Production Officer, Paul Anderson. It is difficult, if not impossible, to sum up the achievements he has earned during his 19 years of dedicated service to Wallace Architects.

Paul Anderson has been with Wallace Architects L.L.C. since its inception in January 1998 and has served as our Chief Production Officer since 2004. For over 40 years, Paul has dedicated his career to the field of architecture, bringing affordable housing to those in the community that need it most.

*“I’ve been fortunate enough to work with two LIHTC industry leaders during the first eight years of my career at Wallace Architects; the late Kurt Wallace, on how to operate outside the office with a high level of integrity and Paul Anderson, on how to successfully operate inside the office with a level head and a discerning eye for detail. Paul’s common sense based approach to everything design related was refreshing and a big key to the success of our niche industry firm; not trying to overcomplicate drawings and specifications while still getting it right. Paul truly has and does “Make it Easier”. I’m excited and proud to be carrying a part of Paul’s technical knowledge base to the next chapter of our firm’s history. We will miss his presence in the office on a day to day basis but we wish the best for Paul as he heads towards enjoying retirement on the farm.”*

**~ Michael Kleffner, partner at Wallace Architects**

*“First I would like to offer my heartfelt congratulations to Paul for reaching this milestone. He has been an instrumental part in our firm’s success over the past few decades. Kurt’s trust in Paul’s ability is what allowed Kurt to spend time out of the office with our clients and build the business. Kurt’s trust was well placed. As long as Paul has been with our firm, his professional and careful approach to developing our drawing sets and working with our clients has been our foundation. Everyone that has worked with or around Paul these last few decades has learned invaluable things from him. Of course, his knowledge of building codes and regulations that affect our projects and stakeholders is unrivaled. But of more importance is the example he has set as a professional. He is a man of unquestionable character and integrity. His leadership in our office during some difficult times has been invaluable and his steady approach to the problems we face has taught us all that there is always a solution to the issue of the day; we just have to roll up our sleeves and find it. His knowledge and leadership will be missed, and we thank him for preparing our firm to succeed after he leaves. It has been an honor to work with Paul, and we thank him for all of his years of dedicated service.”*

**~ Zac Wallace, partner at Wallace Architects**

Paul Anderson has been an invaluable member of our team and has contributed greatly to this firm. His leadership will not be forgotten. We will carry with us the knowledge he has passed on and while we are sad to see Paul go, we wish him the best for the future.
